(f) Single family detached dwellings and accessory structures as existing or approved within the zone at the time of the passage of this ordinance. The Area, Yard and Building requirements of the MFD-1 residential zone for single family homes shall be applicable to these existing residential uses.

BE IT FURTHER ORDAINED, that Section 220-140 of the Code of the Township of Marlboro entitled "Accessory Buildings and Structures" is hereby amended and supplemented to amend section 220-140(E) entitled "Location" to renumber the section and add a new provision establishing specific setback standards to be solely applicable to small sheds which are placed on a property as an accessory structure as follows:

E. Location. 1) Accessory buildings or structures may be erected on lots in accordance with the schedule of limitations, except that no commercial animal shelter shall be erected nearer than 500 feet, or any livestock shelter nearer than 100 feet, to any lot line, and except that these provisions shall not apply to parking spaces in front yards. If located in a front yard, accessory buildings or structures shall be set back a minimum of twice the distance from any street line than is required for a principal building. Accessory structures in second front yards shall be set back the same distance from the street line as the principal structure is required to be set back. If located on a corner lot, the provisions of this chapter also apply.

2) The setbacks for sheds that are placed on a property as an accessory structure and are not larger than one hundred (100) square feet and not taller than twelve (12') feet in height and which only require the issuance of a zoning permit shall be a minimum of five (5') feet from the rear and side property lines. Not more than one such shed shall be permitted to be placed on the property.

BE IT FURTHER ORDAINED, that Section 220-34(B)(2) entitled "Grandfathering Clause" is hereby amended and supplemented and renumbered to expand the scope of the grandfathering provisions to vacant lots which are part of an existing subdivision in which some, but not all, of the approved lots have been developed and have dwellings constructed on them as follows:

1) Grandfathering clause. 1) The requirements of the LC Land Conservation District shall not apply to any property referenced in Ordinance No. 2006-15 that maintains a single-family residential structure, as of the effective date of said ordinance, that is in full compliance with the requirements of the R-80 Residential District and any other applicable state and Township laws and requirements, provided that said property would not be further subdivided. Should such an application to subdivide come forward, the applicant would then be required to meet the zoning standards established for the LC Land Conservation District. In all other instances, the zoning standards in place for the R-80 Residential District would apply.

2) In the event that a property has been part of a previously approved residential subdivision in which some, but not all, of the approved lots have been developed and have dwellings constructed on them and if such development has been rezoned subsequent to the subdivision approval, then vacant lots within the existing or approved subdivision(s) may be developed in accordance with the same approvals issued to the original subdivision under the former zoning requirements. This provision shall not be applicable to any remnant lot in undeveloped areas that may be subject to further subdivision, or whose development as a single family residential lot was not approved as part of the subdivision approval under the applicable former zoning.

BE IT FURTHER ORDAINED, that Section 220-41 of the Code of the Township of Marlboro entitled "CLUSTER PROVISIONS" is hereby amended by modifying Section 220-41 (I)(1), " FLOODPLAINS AND WETLANDS" as follows:

(1) The subdivider shall submit a plat map showing the development according to the requirements of the particular zoning district as shown on the Schedule of Area, Yard and Building Requirements in § 220-34 and another plat map showing the development as modified in accordance with the cluster provision of that particular zone. If the proposed residential dwellings are equal to or greater than 10,000 square feet in size the density of development throughout the proposed subdivision may exceed the exact number of lots that would be permitted to be built if such development had proceeded on the noncluster lot size provision eliminating the existing and delineated wetlands and floodplains. If the proposed residential dwellings do not

equal or exceed 10,000 square feet in size, the density of the development shall not exceed the exact number of lots that would be permitted if such development had proceeded on the noncluster lot size provision eliminating the existing and delineated wetlands and floodplains. The plat showing the subdivision at its nonclustered lot size exclusive of the existing and delineated wetlands and floodplains shall be the governing factor in establishing a yield or a number of lots for that particular subdivision. That yield and the size of the proposed residential dwellings shall be the final determining factor for the number of lots that may be achieved if the cluster option were selected.

BE IT FURTHER ORDAINED, that if any section, paragraph, subsection, clause or provision of this Ordinance shall be adjudged by the Courts to be invalid, such adjudication shall only apply to the section, paragraph, subsection, clause or provision so adjudicated, and the remainder of the Ordinance shall be deemed invalid and effective.

BE IT FURTHER ORDAINED, that any ordinances or parts thereof in conflict with the provisions of this Ordinance are repealed to the extent of such conflict.

BE IT FURTHER ORDAINED, that this Ordinance shall take effect upon passage and publication in accordance with applicable law.
